John's org chart had Harry as the lead, but when I included him in the invite, he said he didn't know anything about this. Dana – do you want to confirm?

I was talking with Judy yesterday about the team and she said Sophia has actually been the tox helping her with fish consumption and other issues at PV Shelf. So I don't know if we want to include her now, or just wait to see how things progress. I see John included Harry Beller.
